# ROGERS' FLOWER GARDENS

## OXFORD, N.Y.

## GLADIOLUS - DAHLIAS - TULIPS

We are a member of the New England Gladiolus Society.

We are offering you this year one of the finest group of varieties in the State. We have practically all of the varieties that have been voted as the most popular in the United States and Canada. We also have many of the new varieties. In making our selections each year we keep in mind their value as cut flowers, in which we have a very large trade. People who visit our gardens each year exclaim over the quality of the flowering spikes that they see growing there. This quality is due to the vigor of our bulbs.

Our gardens are inspected every year during the growing season and latter the bulbs are inspected by the New York State Department of Agriculture and Markets. They have always been found to be free of injurious insects and diseases.

In the following list you will find the names of all the varieties that we are growing in 1941. Those with the price after them we are offering for sale. All prices quoted are for large No.1 bulbs. No item is sold for less than ten cents. When the price is quoted as 2-.15 it means that the price is two bulbs for fifteen cents. Twelve bulbs of the same variety will be sold for the price of ten and six for the price of five. A further discount will be given on larger quantities. We will also have a limited number of smaller bulbs and bulblets at lower prices. If interested write for prices. On all orders over one dollar postage will be paid by us. Cash must accompany all orders.

**TULIPS:** We will have for fall delivery 26 varieties of tulips which were selected for us as the outstanding varieties exhibited in the "Gardens on Parade" at the New York Worlds Fair. Our bulbs were imported directly from Holland. The varieties and colors are listed following the glads.

**DAHLIAS:** We have been growing dahlias for many years. This year we are offering three types- pompom, large flowering and miniatures. Our varieties are too numerous to list. If you are interested we can make you up a very fine selection.

Visitors are always welcome at our gardens which are located one mile north of the village of Oxford on Route 12. Our office is located on Mechanic Street, Oxford.
